Trapezoidal Studio
KG Weight: 13.6

Spectra-Lite STL-2012FSW 12-inch Studio Prompter

QUALITY-BUILT IN THE USA...

Spectra-Lite Model **STL-2012FSW** 12-inch LED Flat-panel On-Camera Studio Prompter configured for camera with full-sized box-type studio wide-angle lens. Features an Extra Wide-angle rigid Trapezoidal Mirror/Hood Assembly with simple LED Tally Light. Comfortably viewable up to 15 ft (4.6m) or more from the presenter.

FEATURES:

Listec Spectra-Lite LED displays feature the latest flat-panel technology and are a natural step up from traditional monitor-based and LCD prompters. They provide a sharp, vivid image without compromise at very attractive pricing and are in use by broadcasters, corporations, educational facilities and institutions around the World. As an added bonus, Spectra-Lite 12-inch prompters feature standard brightness and contrast that some would term "high bright". While composite video inputs are standard, VGA and SDI connectors are optionally available. The flexible design of the STL-2012FSW makes it adaptable to camera updates and will provide many years of trouble-free service.

INCLUDES:

12-inch high quality LED Display with vandal shield for flat-panel protection

Extra Wide-angle rigid Trapezoidal Mirror/Hood Assembly with simple LED Tally Light to accommodate lens focal length wider than 4.5mm

Solid 32-inch Studio Camera Balance Plate (Other sizes available upon request.)

Options/Accessories To Consider:

- **LM-VGA** Factory installed DB 15-Pin VGA connector
- **LM-SDI** Factory installed SDI connector
- **BT-3509-ASSY** Factory installed Internal SensaTally featuring auto-sensing from light source and brightness control. Positioned inside center-front of display case.
- **BT-3510-ASSY** Factory installed External SensaTally
- **A-6WIN/6A** Windows InstantEdit Prompting System
